Problems in the Market

● Unorganized Industry

Large part of the FM sector still operates with unstructured vendors and weak service standards.

● Skilled Manpower Shortage

High attrition and lack of trained workforce affect service quality and operational efficiency.

● Compliance Challenges

Companies struggle with labor laws, payroll, EHS, and statutory compliance management.

● Lack of Technology

Traditional FM providers lack real-time MIS, automation, and performance tracking systems.

● Poor Hygiene & Safety Standards

Weak facility management leads to higher safety risks and inconsistent hygiene practices.

● Rapid Market Demand

India's FM industry is expected to reach USD 60.97 Billion by 2030, increasing demand for professional IFMS solutions.

Solutions We Provide
